

This assignment will not be graded and is only for practice.

Note : This activity is only for practice purpose and it will not be counted towards the Final score

Which among the following statements is true?

1 point

☐

The two major approaches in data management practice have been physical and mechanical.

☐

Book-keeping, from a data management perspective, is the process of physical data or records management using physical ledgers and journals.

☐

NoSQL was introduced since the RDBMS was not efficient enough to handle structured data.

☐

One of the biggest disadvantages of electronic data management is that it might get easily destroyed by moisture, termites etc.

Spreadsheet files are better than paper-based book-keeping in terms of:

1 point

☐ Durability

☐ Scalability

☐ Security

☐ Consistency

Which of the following are disadvantages of file systems as compared to DBMS?

1 point

☐ Upper limit on the number of rows

☐ Unchecked constraint violations

☐ Ability to give user access at different levels

☐ Data consistency is never compromised

Which among the given options is the correct sequence of evolution of data management practices starting from the earliest progressing to the latest?

1 point

A. Data warehousing

B. Punched cards for input

C. Parallel and distributed databases

D. Hard disks for direct access to data

☐ A-B-C-D

☐ D-C-B-A

☐ A-C-D-B

☐ B-D-C-A

Which of the following are client/server RDBMSs?

1 point

☐ Sybase

☐ MongoDB

☐ Couchbase

☐ PostgreSQL
